

Sources and Sinks

OdysseusScript can be used to handle sources and sinks

#DOPSOURCE

This command removes the given source from the system.

```
#DOPSOURCE nexmark:person
```

#DOPSINK

This command removes the given sink from the system.

```
#DOPSINK nexmark:person
```

#DROPALLSINKS

This command drops all installed sinks. It does not remove any queries or sources, but you can use [#DROPALLQUERIES](#) or [#DROPALLSOURCES](#)

Parameters

It has no parameters.

Example

```
#DROPALLSINKS
```

#DROPALLSOURCES

This command drops all installed sources. It does not remove any queries or sinks, but you can use [#DROPALLQUERIES](#) or [#DROPALLSINKS](#)

Parameters

It has no parameters.

Example

```
#DROPALLSOURCES
```
