

BSON protocol handler

The BSON protocol handler parses [BSON](#) documents.

Options

none

Example

PQL

JSONProtocolHandler

```
json = ACCESS({
  source='json',
  wrapper='GenericPull',
  transport='File',
  protocol='BSON',
  dataHandler='KeyValueObject',
  options=[['filename', 'scrobbles-2006-10.json']]
})
```
