ODYSSEUS_HOME

This is a special folder where configurations can be found.

- Linux: Under Linux this folder can be found in the home folder of the user starting Odysseus and is named **.odysseus**.
- Windows: Under Windows this folder can be found under **\Users\<USER>\odysseus** (in most cases this should be c:\Users\...)

You can change the ODYSSEUS_HOME folder by setting it as an environment variable. This can e.g. be done with a start parameter -DODYSSEUS_HOME=/path/to/folder
