Datatypes

Odysseus has a large set of build in datatypes that can be extended by other plugins.

The set of default datatypes is:

- String
- DString
- Document
- Long
- Integer
- UnsignedInt16
- Byte
- Char
- Float
- Double
- Date
- Period
- Duration
- Boolean
- Short
- BitVector
- ByteBuffer
- HexString
- Command
- StartTimestamp
- StartTimestampString
- EndTimestamp
- EndTimestampString
- PointInTime
- List<*>
- Matrix
- MatrixByte
- MatrixShort
- MatrixLong
- Vector
- VectorByte
- VectorShort
- VectorLong
- Object

See plugin description for further datatypes like images etc.
