

BSON protocol handler

The BSON protocol handler parses [BSON](#) documents.

Options

none

Example

PQL

JSONProtocolHandler

```
json = ACCESS({  
  source='json',  
  wrapper='GenericPull',  
  transport='File',  
  protocol='BSON',  
  dataHandler='KeyValueObject',  
  options=[['filename','scrobbles-2006-10.json']]  
})
```
